

# Translational AI Center Distinguished Lecture

**SUBBARAO KAMBHAMPATI**

*From LLMs To LRMs: The Jagged Quest to Tease Planning and Reasoning from Humanity's Digital Footprints*

Subbarao Kambhampati, professor of Computer Science at Arizona State University, former president of AAAI, and fellow of AAAS, AAAI, ACM, will discuss recent advancements in improving Large Language Models' reasoning abilities. He will highlight two main approaches: test-time inference and post-training methods, while addressing misconceptions about their correctness, adaptive computation, and whether generated tokens represent true reasoning.

**MARCH 25, 2025**
